Contents Volume 61

IFORS-SPC 1 on Decision Support Systems

1 Editorial
J.-P. Brans
6 Rule-based simulation metamodels
H. Pierreval
18 Production planning knowledge-based system for pharmaceutical manufacturing lines
A. Artiba and C. Tahon
30 A DSS for optimizing the aggregate production planning at Monsanto Antwerp
R. Bloemen and J. Maes
41 A taxonomy for supporting the development of computer-based production planning and control systems
D.H.R. Price, J.A. Sharp and A.P. Muhlemann
48 Sensitivity analysis for Horn formulae
C. Marcucci and F. Schoen
57 Aligning DSS development with organization development
H. Salmela and M. Ruohonen
72 Towards a DEISS?
H. Thiriez
86 Blackboard metaphor in tactical decision making
S. Vraneš, M. Lučin, M. Stanojević, V. Stevanović and P. Subašić
98 Towards strategic accounting in product management: Implementing a holistic approach in a data and methods base for managerial accounting
A. Back-Hock
106 A DSS approach to urban traffic management
M. Bielli
114 Expert Systems in management and administration – Are they really different from Decision Support Systems?
J.S. Edwards
122 Contrasting successful and unsuccessful Expert Systems
P. Duchessi and R.M. O'Keefe
135 On the integration of an interactive MOLP procedure base and Expert System techniques
C.H. Antunes, M.P. Melo and J.N. Clímaco
145 Designing Decision Support Systems and Expert Systems with a better end-use involvement: A promising approach
S. Després and C. Rosenthal-Sabroux
154 New directions in software for strategic choice
J. Friend
165 Consensus in distributed soft environments
C. Carlsson, D. Ehrenberg, P. Eklund, M. Fedrizzi, P. Gustafsson, P. Lindholm, G. Merkuryeva, T. Riissanen and A.G.S. Ventre
186 Ranking methods for valued preference relations: A characterization of a method based on leaving and entering flows
D. Bouyssou and P. Perny
195 A preference-preserving projection technique for MCDM
R. Vetschera
204 A management tool for indicator-supported systems: A public health service application
E. Carrizosa, E. Conde, F.R. Fernández and J. Puerto
215 A multicriteria scheduling tool using a branch-and-bound algorithm
R. Bausch
219 An evaluation of multicriteria analysis for DSS in public policy decision
N. Mladineo, I. Lozić, S. Stošić, D. Mlinarić and T. Radica
230 A multicriterion view of optimal resource allocation in job-shop production
M. Gravel, J.M. Martel, R. Nadeau, W. Price and R. Tremblay
245 Two multiple criteria group decision support systems based on mathematical programming and ranking methods
P.H. Iz

255 Aggregate production planning – A survey of models and methodologies
S.-j. Nam and R. Logendran

0377-2217/92/$05.00 © 1992 – Elsevier Science Publishers B.V. All rights reserved

273 Planning and scheduling approaches to operate a particular FMS
K.E. Stecke
292 The use of domains in multicriteria decision making
H.A. Eiselt and G. Laporte
299 An iterative SOR algorithm for multi-period spatial equilibria
F. Güder
306 A logic approach to the resolution of constraints in timetabling
L. Kang and G.M. White
318 An efficient heuristic approach to the scheduling of jobs in a flowshop
C. Rajendran and D. Chaudhuri
326 An algorithm for storage device selection and file assignment
B.T. Han and G. Diehr
345 On balancing variances of station processing times in unpaced lines
H.-S. Lau
357 On simulation and optimization of macroeconometric models
J.R. Engels

370 OR Software *H. Thiriez (ed.)*
372 Book Reviews *L.F. Gelders (ed.)*
